

DONOVAN

HOSPITALITY, BE PATIENT

“Donnie is an Extraterrestrial like any other.

He has found his way to the blue planet earth. Eager to fit in, he mimics the human frame best he can.

He himself lacking both terrestrial organs and digestive system he is prone to involuntary mutations. Still he tries his best to look slick, seeking friends and interaction with females of the species.

One of his favourite pickup tricks has him, using his natural ability of reproducing organic matter, donating organs to the local hospital...”

INTRODUCTION

Donovan often finds himself in awkward situations and in clinch with his surroundings due to the nature of his being and his dispositions. These situations will be taled (the telling of tales) in a series of scenarios and installations. Small tales of morale and differences and of people and beings coming together. Following the many incarnations and states of Donovan's being and of his transgressions and ascendance by way of mutation.

THE 7 STATES OF DONOVAN

1) STOIC/ MONUMENTAL

In full standing Donovan's exterior is that of calm composure. The asymmetrical difference in muscle mass and lesser and more obvious details tell tale of the underlying incongruences and inner turmoil.

2) AWAKENING/ AWAKENED

The second state of decomposition/ decomposure, holds Donovan's two inner eyes hidden inside his would be skull and in substitute of what would be his extreme Cervical Vertebra disc. The two eyeballs connected with an optical cord lets him grasp his surroundings with his inner eyes.

3) DELIRIUM/ DELIRIOUS

The three inner shells illustrates Donovan's complete meltdown, from the stoic outer composure to the inner turmoil of confronting Nurse Kira.

4) MELTDOWN #1

5) MELTDOWN #2

6) INNER ALIEN

The very essence of Donovan's being. The inner alienation that he must shelter from the world. The Inner Alien only exposed to those proven to his trust.

7) GLUTTONY/ GLUTTONOUS

The Inner Alien nests inside The Gluttony/ Gluttonous.

&) OUTER ORGANS

Paper bag carrier containing the organs for donation.
